

StellarX

KEY FUNCTIONALITIES

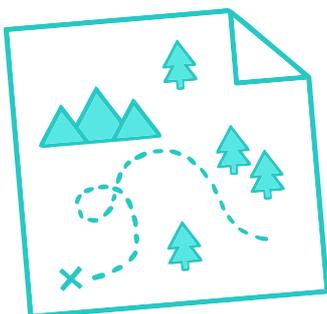

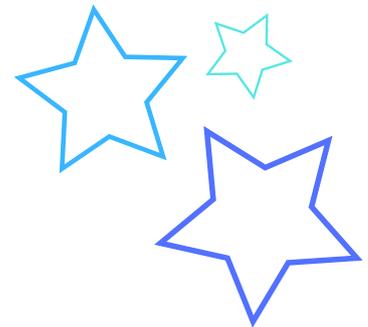

DRAG & DROP

Rotate, collide, and scale any objects with ease, and transform as you please. Manipulations are simplified with our drag-and-drop functionalities. Place your virtual assets however and wherever you'd like to create an immersive experience that's totally yours!

ANIMATE & TRANSFORM

Use Stardust to bring inanimate objects to life! Customize the physics, gravity, and dynamically life-like interactions to make your experiences magical and memorable.

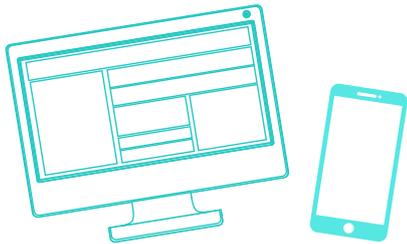

TELEPORT & EXPLORE

Use teleportation to travel to never-before-seen realms and unexplored lands. Explore the magical metaverse and enjoy immersive experiences like never before. Dive into secret portals, duck into mystical realms, interact with shared walls, and come face-to-face with virtual avatars.

COLLABORATE & SHARE

Invite your friends to experience your immersive creations, and collaborate with others, near and far, in real-time to bring new and exciting ideas to life!

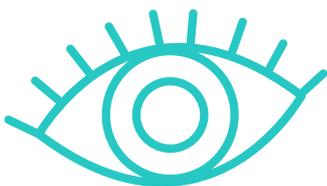

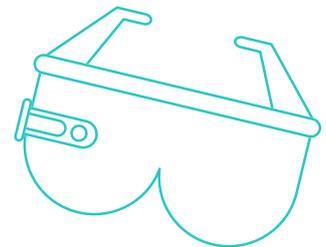

ANYWHERE & EVERYWHERE

Compatible across all platforms: web, mobile, and XR; and available from all your devices. Imagine, create, and take your experiences with you wherever you go. Always in sync and always cloud connected, showcase your work with pride!

IMMERSED & AUGMENTED

Using virtual and augmented technologies, extend your reach, enhance your skills, and take yourself (and your realistic avatar) to the next level. Create entire XR experiences all while being immersed yourself. With the power of spatial computing, there's really no telling what you'll accomplish.

VISUALIZE & ANALYZE

With rich visualizations, you can fill any space with limitless ideas, while analyzing their real-time impact with interactive heatmaps and behavioral analysis. Understand your environment, connect on a new level, and create more impactful and meaningful experiences.

SAVE & LOAD

Save and load your experiences in as little as 1, 2, 3! Rest assured, your creations are safe and sound. With unlimited cloud space, you can create to your heart's content!

EXPORT & IMPORT

Whether you're uploading personal creations, or marketplace purchases; easily import your virtual assets and export your creations in a snap!

ASSISTIVE & ACCESSIBLE

Designed with ethics, privacy, and accessibility in mind, our technology empowers everybody and anybody, regardless of age or technical ability, to create memorable and mind-blowing immersive experiences. Just drag-and-drop, grab and go, point and click or say it aloud! (Voice recognition and speech analysis coming soon.)
